

## CME Information

### DV035 – Biliary Access Techniques for ERCP: From Basic to Advanced

#### Instructions:

Read this information sheet pertaining to the video. View the video, then complete the evaluation form. Return completed evaluation forms to the ASGE via fax, mail or email. A CME certificate will be emailed within 2-4 weeks of receipt to the email address indicated on the form.

#### Description and Learning Objectives:

This program offers viewers a comprehensive presentation of biliary cannulation and access techniques for ERCP ranging from basic to very advanced. Equipment, room setup and basic principles are reviewed. All of the major techniques for biliary cannulation are presented in detail, including traditional methods, guidewire cannulation, and particular emphasis on newer approaches including pancreatic guidewire and pancreatic stent-assisted techniques.

All of the major variants of precut sphincterotomy are demonstrated as well as special techniques for altered and difficult anatomy. Throughout this DVD, pros and cons, and risks and benefits of each technique are discussed. Adaptation of technique to individual patients and their anatomy is emphasized.

As a result of participating in this educational activity learners will be able to:

- Review basic principles of selective biliary cannulation;
- Become familiar with newer approaches including pancreatic guidewire and stent-assisted biliary access techniques, and variants of precut sphincterotomy; and
- Understand risks and benefits of each technique.

Target audience: Practicing gastroenterologists, gastroenterology fellows and trainees, medical residents, physician assistants, nurses.

#### Authors:

Martin L. Freeman, MD  
Kapil Gupta, MD, MPH

#### Disclosures:

All faculty participating in continuing medical education programs must disclose to the audience any financial interest with any commercial supporter or other relationships with manufacturer(s) or providers of any product or service related to the content of their presentation. All content is peer-reviewed to ensure its quality and independence.
